

## Anti-Slavery and Human Trafficking Statement

In compliance with section 54(1) of the Modern Slavery Act 2015

As a long-established company more than twenty years in operation, London-based Capital Moves provides nation-wide removal services and comprehensive storage facilities for housing associations and individual clients.

Our company's anti-slavery and human trafficking statement—and indeed our practises— express our firm commitment to integrity and ethical processes within our company.

We can therefore confirm that our dedicated core team of employees receive full financial remuneration for their work according to their human rights within our society. Moreover, our internal systems and controls operate to exclude such practices in any of our external business relationships.

We welcome the opportunity to express, to align with and to extend ethical practices for the continuing benefit of our society.

For and on behalf of  
Capital Moves & Storage Ltd

Fergal McClelland
